Summary

Enthusiastic, detail-oriented web developer with hands-on experience in building responsive React.js applications. Proficient in HTML, CSS, JavaScript, and state management, focusing on creating efficient, user-friendly interfaces. Seeking an opportunity to contribute to impactful projects while growing within a collaborative development team.

Work Experiences

• **Frontend Developer Intern** | DeshIT-BD (Remote) | Oct 2025 – Dec 2025

- Built multiple e-commerce projects as a frontend intern.Resolved technical bugs and enhanced user experience with custom animations.

Projects

• **Jewellery Shopping** | Tailwind, Next.js
- Customers can filter jewellery products by price, carat and category and can also filter blogs. When viewing a specific product, they are shown related products for a better shopping experience.
- GitHub | Live

• **Salis Erp Landing Page** | Tailwind, Next.js
- Salis ERP features an interactive landing page designed with smooth animations and a fully responsive layout, providing users with an engaging and seamless browsing experience.
- GitHub | Live

• **Hair Transplant Landing Page** | Tailwind, Next.js
- Salis ERP features an interactive landing page designed with smooth animations and a fully responsive layout, providing users with an engaging and seamless browsing experience.
- GitHub | Live
