Career Objective

I am a dedicated computer science student seeking an entry-level role in web development. I did some group projects during my university studies. Skilled in problem-solving and proficient in programming languages such as C, C++, and JavaScript, with experience in the ReactJS web framework. I am looking for a role that will allow me to apply my skills while continuing to expand my technical knowledge.

Projects

- **Personal Portfolio**
  Technology Stack: Tailwind, React-Router-Dom.
  Details: Fully responsive personal portfolio website
  [Github](#) | [Live](#)
- **Movie-Verse**
  Technology Stack: Tailwind, ReactJS, Firebase, MongoDB.
  Details: Users can view movie details, ratings, and categories, maintain a personal watchlist for an immersive cinematic experience, and also can search for their favorite movie..
