Summary

Enthusiastic and detail-oriented web developer with hands-on experience in building responsive React.js applications. Proficient in HTML, CSS, JavaScript, and state management, with a strong focus on creating efficient, user-friendly interfaces. Seeking an opportunity to contribute to impactful projects while growing within a collaborative development team.

Projects

• **Jewellery Shopping**

- Stack: Tailwind, Next.js
- Customers can filter jewelry products by price, carat, and category and can also filter blogs. When viewing a specific product, they are shown related products for a better shopping experience.
- GitHub | Live

• **Food Ordering System**

- Stack: Tailwind,DaisyUI,React.js,Firebase,NodeJs,MongoDB
- Customers can browse food info, view pricing and manage their personal food cart.
- GitHub | Live | Server

• **Salis ERP Landing Page**

- Stack: Tailwind, Next.js
- Salis ERP features an interactive landing page designed with smooth animations and a fully responsive layout, providing users with an engaging and seamless browsing experience.
- GitHub | Live

• **Movie Verse**

- Stack: Tailwind,DaisyUI,ReactJS,Firebase,NodeJs,MongoDB
- Users can view movie details, ratings, categories, maintain a personal watchlist and search for their favourite movie.
- GitHub | Live | Server
